About me:

My name is Victor Itah. I'm a young Front End Engineer and Creative Designer based in Lagos, Nigeria. I describe myself as a passionate designer and developer who loves coding, open source, designing and the web platform.

Aside from my job, I like to create and contribute to open source projects. This helps me to learn lots of stuff, grow as a designer, developer and support other open source projects. Also i enjoy doing Ui/Ux personally because it gives room for foundational layout, guidelines as well as creativity exercises and approach before the actual coding.

Throughout my career, I have always tried to ensure that the passion and enthusiasm for my work has shone through. I have found that it is through a team that I have achieved my greatest potential.

In all my work, I have relished these challenges and used them to fuel my ambition and maintain my own high standards.

Objective:

To obtain a position as an software engineer / IT personnel in a challenging environment that utilizes team-work effort for researching, learning and developing new high-tech products for solutions and growth of the company.

Education and Qualifications:
